# PIRANESI

30 years of Piranesi magazine

39 years of Piran days of architecture

On the occasion of the 30th anniversary of the Piranesi architectural magazine and the publication of the new jubilee issue, architect and editor-in-chief Robert Potokar will present the story of **Piranesi magazine**, which began with the **Piran Architecture Days**, which have been held in Piran, Slovenia, for thirty-nine consecutive years. The meeting mainly brings together Central European architects with lectures and exhibitions, the most important of it is the **Piranesi Prize** exhibition.

The lecture will present the correlations between Piran, the Piran days of architecture, the Piranesi award and connections within the Central European area, from Slovenia, Italy, Austria, Croatia, the Czech Republic, Slovakia to Hungary, as well as the importance of the magazine Piranesi itself, whose latest issue highlights the work of the architect Günther Domenig and his Steinhaus.
